POST, PUT, PATCH
Operations
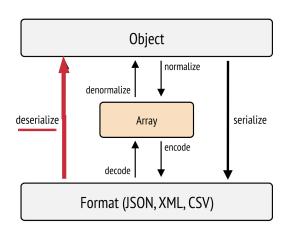

HTTP Request
POST, PUT, PATCH
operation

Deserializer
Converts an array of
specific format (e.g. JSON)
into an object of a given
class.

Data Persister
Saves data to the
database

Client

JSON Array

```
{
    "eventType": 0,
    "eventDate": "2021-08-04",
    "countryId": 0,
    "orgId": 0,
    "clientId": 0
}
```

Object

AnimalEvent
$eventType; $eventDate; $countryId; $ordId; $clientId;

Database

Response

Status Code: 201
Description: Animal
resource created
